Canadian Caremongering	

EXPERIENCE

Web developer (Freelancer) | May 2020 – Present
Vancouver (Canada)

Currently, developing the website in WordPress for ICaRN, a research network formed at the University of British Columbia and OrePortal, a mining company based in Vancouver. I also developed the website for Canadian Caremongering Society using WordPress. I consult with the clients to get the user's requirements and then design and develop user-friendly and responsive webpages.

Web developer | Oct 2020 – Jan 2021
Dolon Media Group Inc., Surrey (Canada)

I am working as the sole WordPress developer to complete numerous website projects. I work and communicate with clients to design and construct WordPress based websites according to their requirements.

UI/UX designer (Internship) | April 2020 – July 2020
Evolve X Organization, Vancouver (Canada)

Worked for website development of Organic Moringa using React JS. My tasks included performing layout adjustment and designing interface elements based on the designs provided by graphic designer and tester's feedback. I used the responsive design element for media (mobile & tablet) compatibility.

Software engineer | June 2018 – June 2019
Orange Mantra, Gurgaon (India)

Worked on various projects from research to conceptual design & implementation and monitored web pages for continuous improvement. I used designs to code the layouts using HTML, CSS, JavaScript, and Magento and integrated APIs such as payment gateway and shipping platform into the website.

Magneto developer | Feb 2017 – Dec 2017
HiDigits IT Services Ltd., New Delhi (India)

Consulted with clients to understand their requirements for webpage designs then installed Magento on web servers & implement the approved designs with APIs. I also used WordPress to integrate blog page designs into Magento.

EDUCATION

Full-Stack Web Development (Diploma) | Feb 2021 – Present
Lighthouse Labs, Vancouver (Canada)

DevOps Course | May 2020 – Aug 2020
ComIT, Vancouver (Canada)

Electronics and Communication (B. Eng.) | Aug 2010 – June 2014
RKDF Institute of Science and Technology, Bhopal (India)
